First-Ever Solar Project at VNY completed

© Bob Benish, Bob Benish Photography, LLC

LAWA staff and partners commemorate the official launch of the Aeroplex/Aerolease solar installation.

In 2018, LAWA completed the Aeroplex/Aerolease solar project and announced six new tenant solar projects at VNY.

**8,000 HOMES**

Upon completion, the seven VNY solar projects will produce over 44 million kilowatt hours (kWh) per year, enough energy to power approximately this many homes in California in one year.
