Suzanne	Gutierrez	IV. Public Comment Period	The community is supposed to have 72 hours to make comment through this portal. It was only available for a few hours. This is completely unfair for those of us that this is the only way to leave comment. LAWA, you must do better and make sure this doesn't happen again because this wasn't the first time.	10/03/2023 07:00 PM	10/03/23 8:15 AM
Suzanne	Gutierrez	IV. Public Comment Period	Just yesterday with the balmy 75° weather, with the windows open, I had to scream and yell to my kids to hurry up and shut the doors and windows because the jet fumes are infiltrating our home. And then I had to turn on the three air purifiers in our living room. This is commonplace in our home. When will this madness stop? LAWA, when will you actually hear the voices of the community that we are being poisoned by these toxic fumes? What steps have you taken to help us? Isn't it our human right to be able to breathe clean air? Just for a moment, flip the narrative... What if that was you and your kids? What would you do?	10/03/2023 07:00 PM	10/03/23 8:26 AM
Stacey	Hoff	VI. b. Rolls Royce Presentation	This presentation was wrong place wrong time and demonstrates the games LAWA is playing with the community who voice concerns about how disruptive Van Nuys Airport is to the community without any benefits to the actual community. It was disrespectful to Rolls Royce and the community to have time spent discussing things that just don't apply. Noise pollution, fuel pollution. Even Rolls Royce admitted they are far far away from reducing engine noise. Shameful really. Why isn't there someone from the community in charge of the CAC meetings? With LAWA in charge the community voice is suppressed.	10/03/2023 07:00 PM	10/03/23 9:06 AM
Stacey	Hoff	IV. Public Comment Period	Complaint Metrics- every month metrics are stated on the number of complaints and change from one month to another. This is a misuse of the data because it is not accompanied by any context of the situation. The complaint metrics stated each month have no reflection on community sentiment. LAWA can't expect my 80 and 90 year old neighbors to file complaints. I file complaints through Airnoise and have to pay to file them. In a given week I file 400-590 complaints. If everyone on my street of 25 houses filed complaints as I did there would be 18k-25k complaints a week alone from my street. I respectfully ask LAWA when stating any complaint metric to include the following statement "LAWA recognizes these complaint numbers may not indicate full community sentiment and are just a note to stare the complaints LAWA receives"... I also worry how these metrics are noted on any analysis done sent to anyone inside and outside LAWA. CEOs of public companies would never state metrics without surrounding context and complete analysis because they would be misleading as demonstrated by LAWA stating complaint metrics without any context or analysis support.	10/03/2023 07:00 PM	10/03/23 9:50 AM
Penny	Alpert	IV. Public Comment Period	First, completely inexcusable that the website was down, so public couldn't comment until this morning. Second, how to make any sort of cogent public comment on new agenda, when only the old agenda is up? Respectfully, where is this week's agenda? Finally, last mtg's Rolls-Royce presentation was a waste of time for the public, CAC Council members, and Rolls-Royce, as well. Unfair to throw the poor RR presenter into that situation. Clearly a ploy to use up meeting time and attempt to balance the public presentation. Not sure who put this on the agenda, but, respectfully, I think it was a misstep. On a separate note, yesterday's volume of pvt jet traffic was especially untenable — window and teeth-rattling.	10/03/2023 07:00 PM	10/03/23 10:24 AM
Alicia	Avery	IV. Public Comment Period	The community is supposed to be given 72 yours to make comment through the CAC portal but it was only available for a few hours. This is unfair to the community as a whole for this is one of the only ways for us to have a voice and leave a comment. LAWA and VNY must do better and make sure this does not happen again because this has not been the first time this has happened. The community is frustrated in the CAC, LAWA's, & VNY Airport's lack in including the community and addressing our concerns and taking us seriously.	10/03/2023 07:00 PM	10/03/23 10:37 AM
Suzanne	Gutierrez	VI. c. Community Presentation on the Vision Study (Sue Steinberg et al) - Discussion/Action	Why is last month's (September) agenda items on the pull down menu for tonight's agenda (October)?	10/03/2023 07:00 PM	10/03/23 10:47 AM
sue	steinberg	VI. c. Community Presentation on the Vision Study (Sue Steinberg et al) - Discussion/Action	Thank you for letting us give our presentation. Now what are the NEXT steps to make this one of the alternatives to LAWA's Vision Study. Now the CAC needs to vote on endorsing it. This is how the COMMUNITY can really be a part of the solution. Hopefully this will be addressed at tonight's meeting (10/3). BTW - the comments section wasn't working earlier - and this looks like it might be for last week? Either way - my comment is the same!	10/03/2023 07:00 PM	10/03/23 10:49 AM
Dannielle	Sweet	VI. c. Community Presentation on the Vision Study (Sue Steinberg et al) - Discussion/Action	I fully support the alternate plan for Van Nuys Airport that Sue Steinberg, etc al presented at the last CAC meeting. We need additional "buffers" as a concession from both LAWA & CAC. The current plan for Airport expansion was not how the Airport was designed especially after the houses located in the Pocket were built. Look at the historic photos and plans after the homes were built in 1951.	10/03/2023 07:00 PM	10/03/23 11:39 AM
