Dear Karim Webb:

At the October 1, 2024 Van Nuys Airport Citizens Advisory Council (CAC) meeting, the CAC made the following motion.

### **Motion to Transition Away from Harmful Aviation Fuel**

Whereas, the Public, Pilots, and LAWA seek to transition away from harmful lead aviation fuel (aka: Avgas).

Whereas, shortly after CAC discussions and motion in May 2022 about Swift 94 octane unleaded fuel, LAWA, the Prop Park, and Signature Aviation started providing that unleaded fuel for sale at VNY that summer of 2022.

Whereas, in recognition of GAMI's letter and Vitol's comments here tonight, GAMI G100UL (100 octane Aviation unleaded gasoline) is officially available for delivery, is FAA certified for use, and certified for mixing with the leaded 100LL gasoline in tanks – i.e. aircraft gas tanks, storage tanks, and transport tanks.

Therefore, the VNY CAC requests that LAWA expedite all efforts to begin receiving GAMI G100UL fuel in all VNY airport fueling facilities as soon as possible and without further delay. In addition, the VNY CAC requests for LAWA to look at and pursue grants, tax reductions, and financial incentives for GAMI G100UL.

All distribution and delivery of official documents are to display who specifically received the documents via US Mail and/or cc'd via Email as stated on the official document to provide complete transparency.

The motion passed with a roll call vote of fifteen "affirmative" votes, zero "no" votes and zero "abstentions". (A. Avery, S. Brackett, R. Chavez Carranza, E. Cohen, K. Delle Donne, M. Harris, T. Materna, K. Mattoo, H. Molina, J. Parker, A. Parseghian, J. Price, E. Robinson, R. Rodine, W. Williams); zero "no" votes, and no abstentions.

Thank you for your consideration.

A handwritten signature in black ink, appearing to be 'JP', with a stylized flourish at the end.

Jason Price  
Chair  
Van Nuys Airport Citizens Advisory Council
