NOTICE OF STREET WORK

The City of Los Angeles, Department of Public Works, Bureau of Street Services has scheduled repairs to your street. The repairs will start approximately, **Tuesday, May 22, 2018.**

Hayvenhurst Street, from Saticoy Street to Sherman Way

While the project is in progress, "Temporary No Parking Signs" will be posted on the street. The signs will be posted at least 24 hours before the actual work begins to provide notice to residents and business owners. Please have all vehicles removed from the street to protect them from damage by construction debris and to prevent interference with the planned work. When work is not in progress between the preparation and resurfacing phases the signs will be reversed to allow for vehicular parking.

Vehicles will have access during the cold milling of the project. However, it is requested that driving be limited within the project area to avoid possible damage to your vehicle. The only time that access will be restricted within the project area is when the street is coated with liquid asphalt, prior to laying the level course on the street.

When the crews are working, there will be construction equipment and trucks in the area. This equipment may be of interest to children. Remind residents to be careful and ask children to avoid the equipment and work-site area.

Thank you for your understanding and patience during this project. Persons with mobility impediments and their caregivers can request assistance if the scheduled street work limits their use (including ingress or egress) of the public right of way. If you have questions or need to request an accommodation, contact the supervisor on the project site or call (818) 756-8651 or (213) 847-3200.
